Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 13-16, drawn to a scheduling module configured to manage a calendar of events for the service provider (unrelated to the process thus far recited in claims 1-12).
- II. Claims 1-12 and 19-21, drawn to a network based marketing system comprising a network interface configured to receive a promotion from a service provider and a merge module configured to combine the promotion with each of the respective plurality of client profiles to thereby create a plurality of personalized promotions.
- III. Claims 22-29, drawn to a method for calculating a total number of promotions sent and for determining a total cost for sending the promotions, wherein the total cost is based on the total number of promotions sent.
- IV. Claims 30 and 17-18, drawn to a method for searching a database, having encoded thereon a plurality of client profiles, for a client event and for composing a personalized message for the client pertaining to the event.

The inventions are distinct, each from the other because of the following reasons:

Art Unit: 3622

For example, Inventions II and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed. The subcombination has separate utility by itself such as sending a greeting message to a client based on an event, such as the client birthday, as read from a database.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art and required a separate search and hence, restriction for examination purposes as indicated is proper.

A telephone call was made to request an oral election to the above restriction requirement, but did not result in an election being made because the Attorney did not return the Examiner's phone call.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean D Janvier whose telephone number is 308-6287. The examiner can normally be reached on Monday-Thurs. 9:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eric W. P Stamber can be reached on 703-305-8469. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
